

Round table:
Comparing Italian (European?) and
USA recommendation on HPV as
primary screening test

Philip Castle, Francesca Carozzi, Paolo
Giorgi Rossi, Guglielmo Ronco, Mario
Sideri

Questions:

- Are there true differences? (all)
- The so called “co-testing” (all):
 - What does it add?
 - Are the evidences available really only valid for co-testing or can be translated to triage?
- What will change at the prevalence round? (all)
- Why are there differences between the USPSTF Systematic review conclusions and the ACS recommendations? (Castle)
